To whom it may concern the purpose of this letter is to explain all that is involved in my court hearing scheduled at 1:30 today in Federal Court.

The reason there is court today is because the attorney representing myself and my wife Kristian Pettine Gallegos wants to get out of representing us on a civil suit against the City of Espanola and the police. The attorney we hired is Nathaniel Thompson and his business name is The New Mexico Firm LLC.

Mr Thompson states that there is a conflict of interest between me and my wife representing me and my wife Kristian, because she filed a restraining order against me. The reason she did that was to try to appease the guardian ad litem in her daughter Kolby London's custody case. When Kristian came to her senses and realized what she was doing was wrong she did not go to the court the restraining order was then dropped. I am in incarcerated now and at the time of the hearing Dec 5, 2014 and was not transported to that

hearing nor was I served with a restraining order.
It was never issued.

I was unable to attend court today in Federal Court because the District Judge Ellington did not grant me a furlough to go to court. I believe I am not receiving due process of the law by not being allowed to go to court and for the Federal Court not being rescheduled to a later date when I am not incarcerated and have time to get legal council.

I do believe the attorney me and my wife hired Nathaniel Thompson is now incapable of representing us properly and therefore; if he is allowed to withdraw from our case he should be required to give us a full refund of our money which is forty thousand dollars.

Sincerely
